Modern, Stylish and Elegant
Highlighting the light luxury taste

What we sell is not only door moldings but also a fashionable design that will make you feel comfortable

完美*tt

PERFECT SYSTEM SERIES

PRODUCT FEATURES

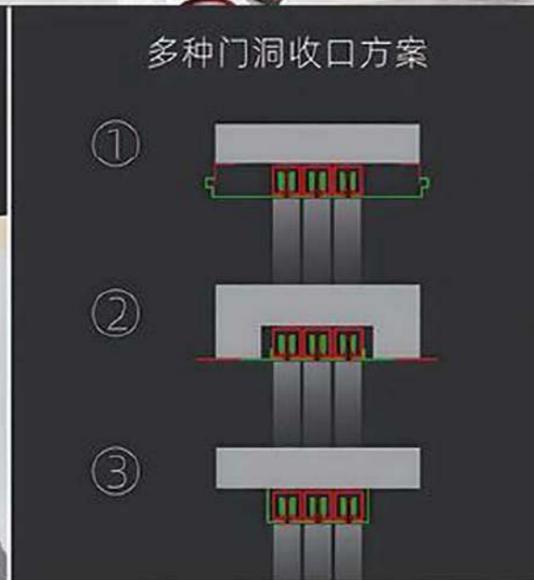

1. Doors need to be registered sources and narrow edge design is more suitable for indoor use, which will help enhance the visual effect of the space and make the room more transparent and bright
2. Sliding Door Single, Double Track, Three or Eight Track without lower track, the linkage system can achieve a maximum of eight linkage
3. With hidden hardware, the whole door looks simpler, the sliding door can be flexibly interchanged left and right and is easy to open
4. The whole door system is shockproof, dust-proof and has a good user experience
5. Sliding doors with single or double tracks and three to eight load can turn 90 degrees without corners

Lightly Activate Left & Right Push

The elderly and children can also open it easily

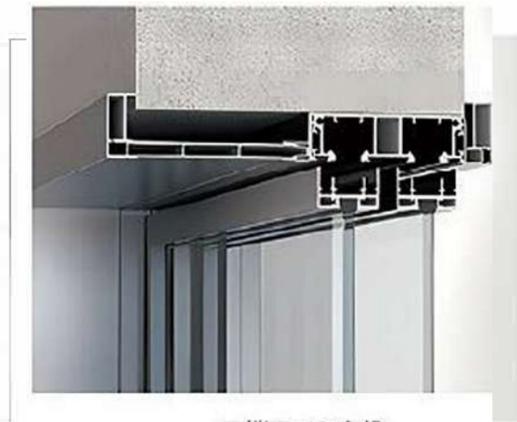

Hardware Hidden, Minimalist Appearance

No visible slots/belts/screw holes, accessory slots are not exposed

免预埋安装
免拆门轨维护

Minimalism

Most beautiful scenery

Pursuing minimalist artistic beauty

Exquisite and practical in the experience

HC-3314

Color: Dark Skin
Crafts: White Glass

Six Core Innovations & Upgrades of the Power System

Extreme Craft Sewing

The new door system design realizes the double-limit micro-gap between the track gap and door wall with extreme simplicity

Hidden cracks in home

The linear guide rails have hidden hardware and accessories are not included in the box

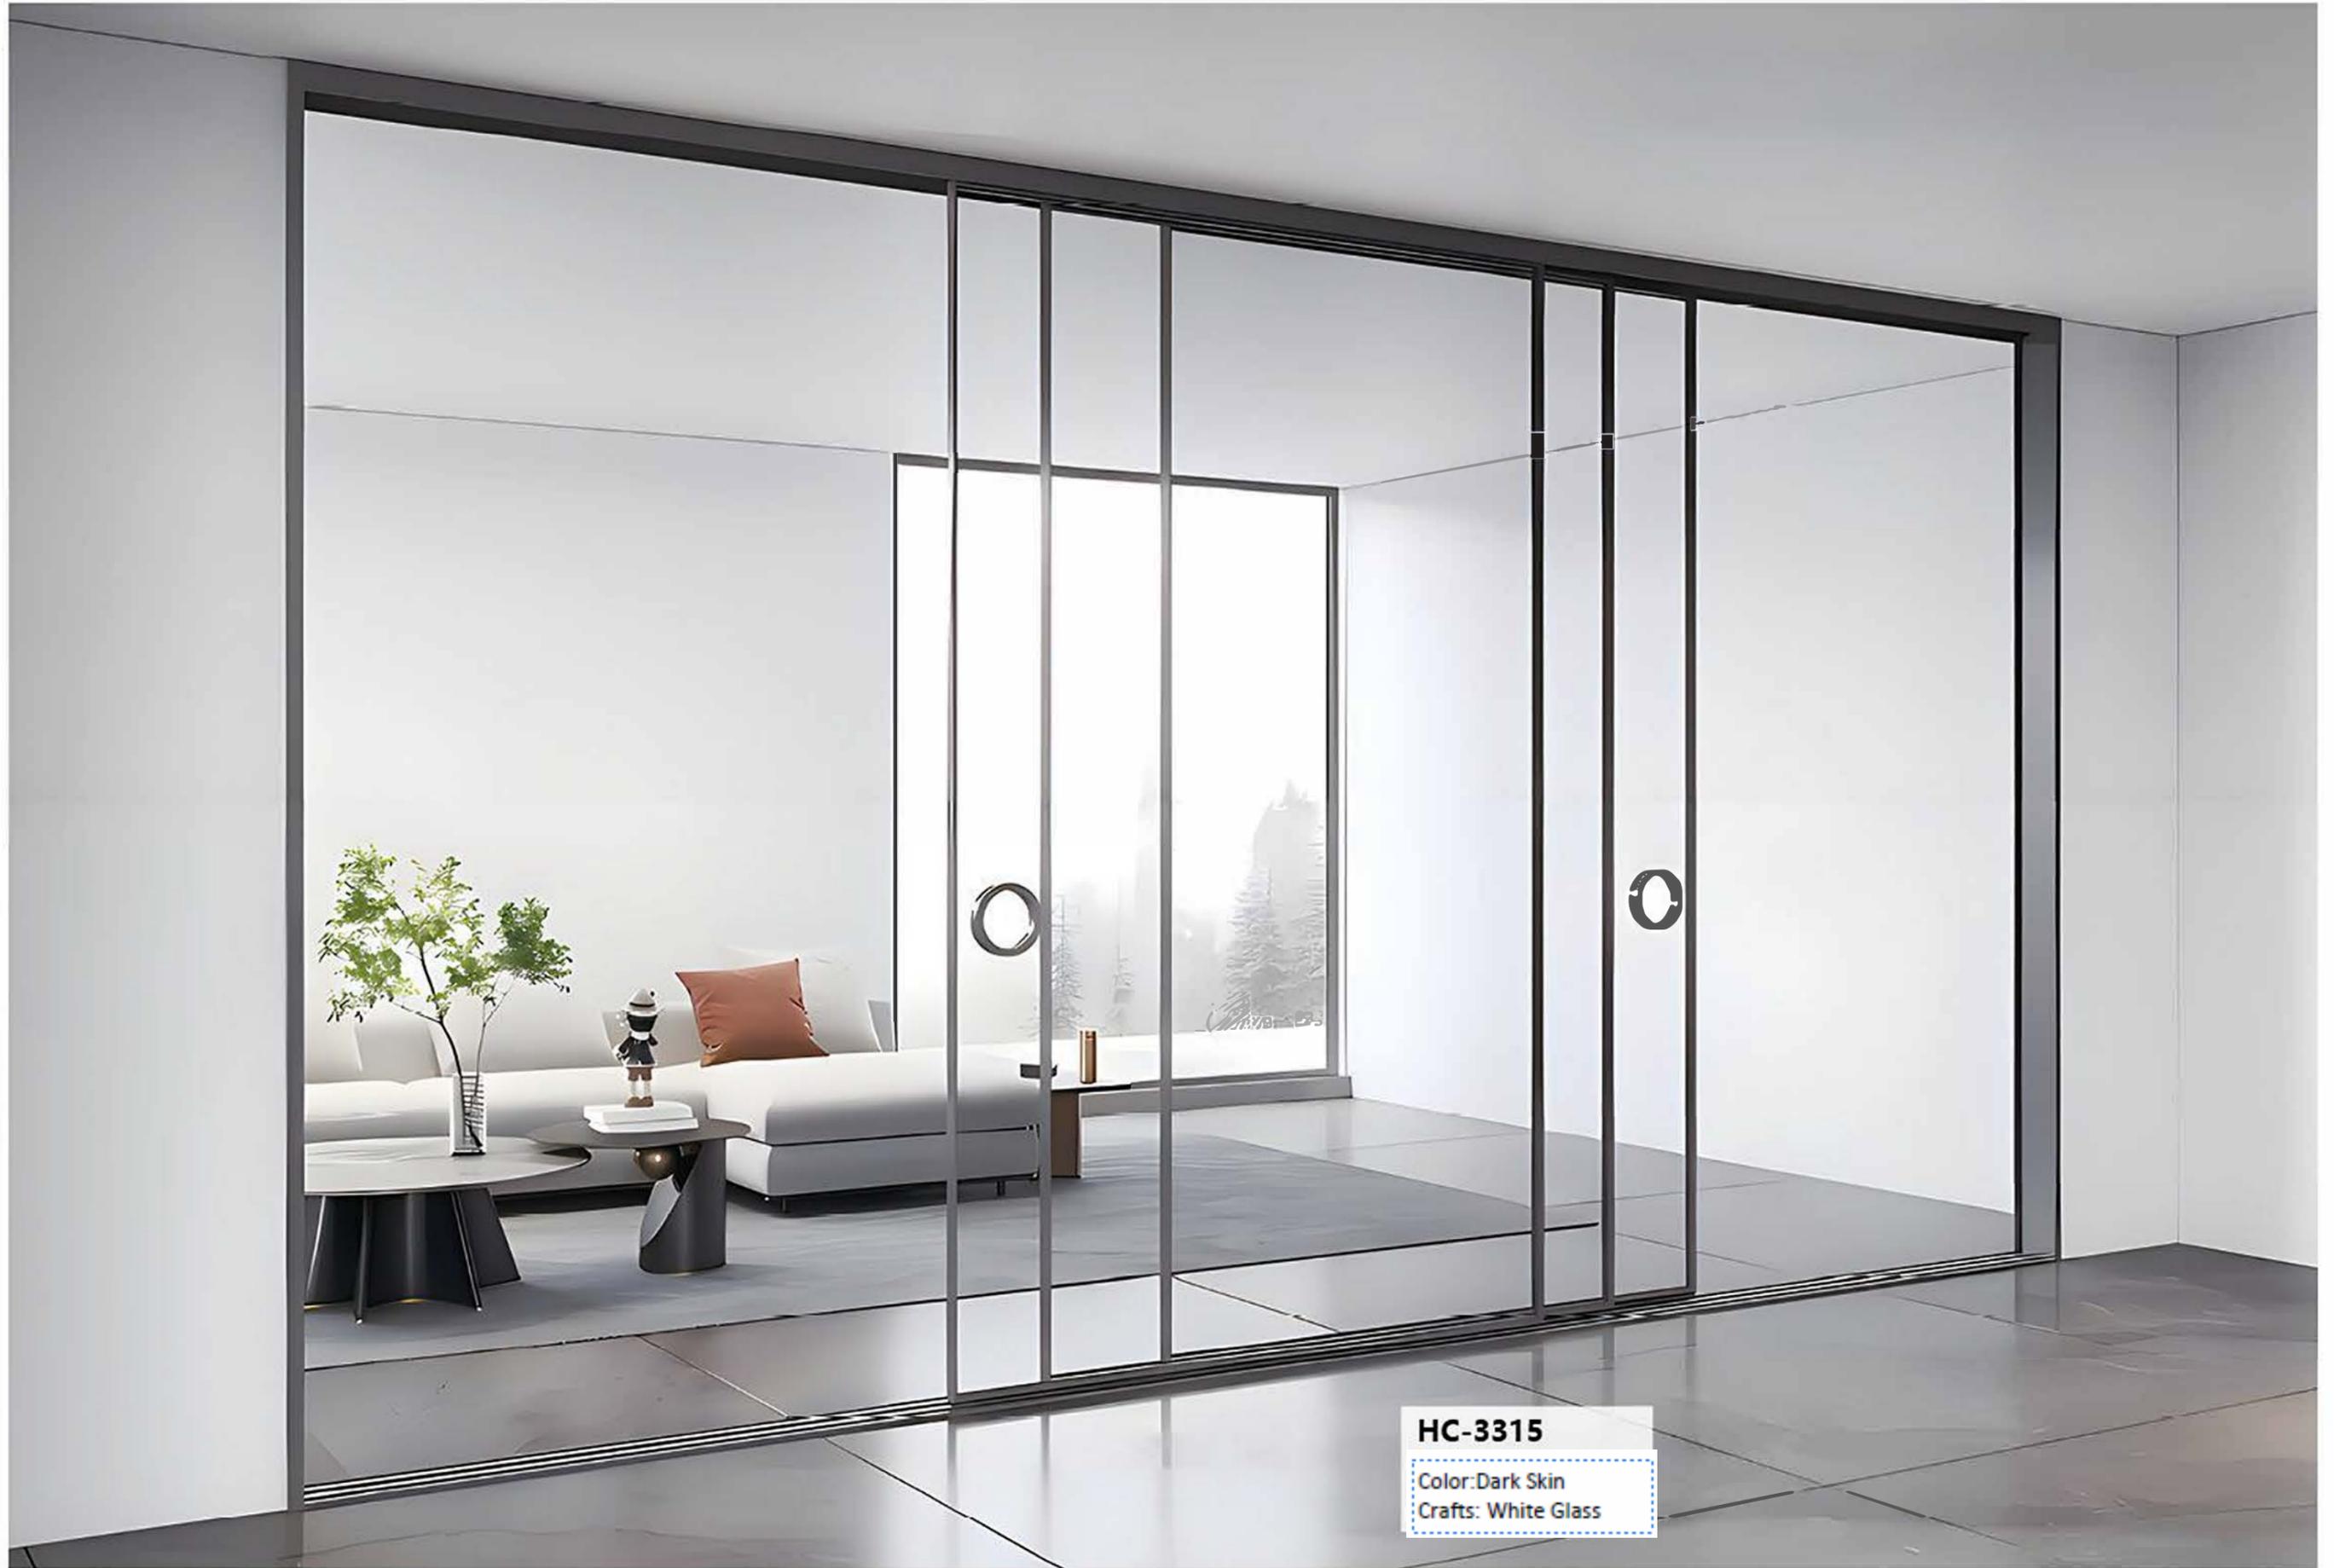

Stable no shaking/no sinking

The new bouncing wheel structure design of the lower frame is stable, durable and can slide smoothly

Light Start Pushing, Pulling Left and Right

Double track damping light start, safe and anti-pinch finger realize door leaf pushing each other no fixed room

The Split structure design of the cassette allows the upper shank, lower shank and damping parts to be replaced directly

THREE TRACK LINKAGE

Three Tracks linked together

三轨联动，以一带三

三扇重叠可以节省三分之二的开启空间，视觉空间更为开阔。联动开启，无需费力，一步推拉到位，方便简捷。

The overlapping of three doors can save two-thirds of the opening space, making the visual space more open. The door can be opened in a linked manner without any effort and can be pushed and pulled in one step which is convenient and simple

Anti-Balance Wheel

防摆轮

控制门扇平衡，助滑、防摆效果明显，在强风吹袭下，也能安定不摇摆，确保稳固性同时提升静音效果。

Middle Net Round

中扇上轮

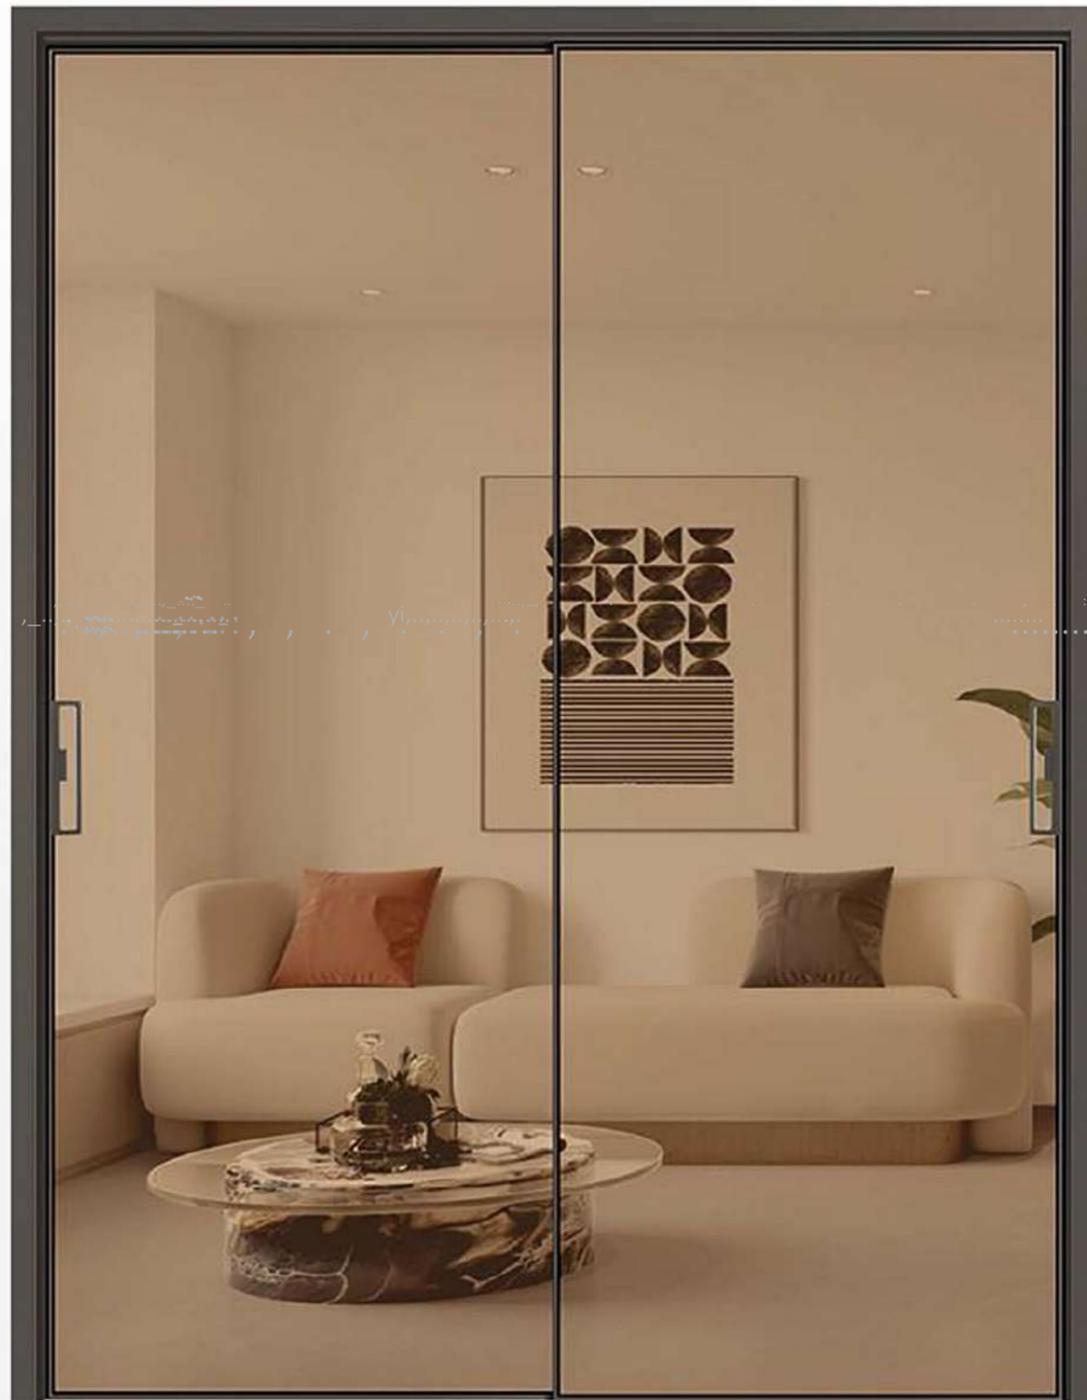

与上轨道紧密配合，能平衡中间门扇在其它扇牵引时候，门扇不容易摆动使拉动时候，更顺滑，更省力。

Damper

阻尼器

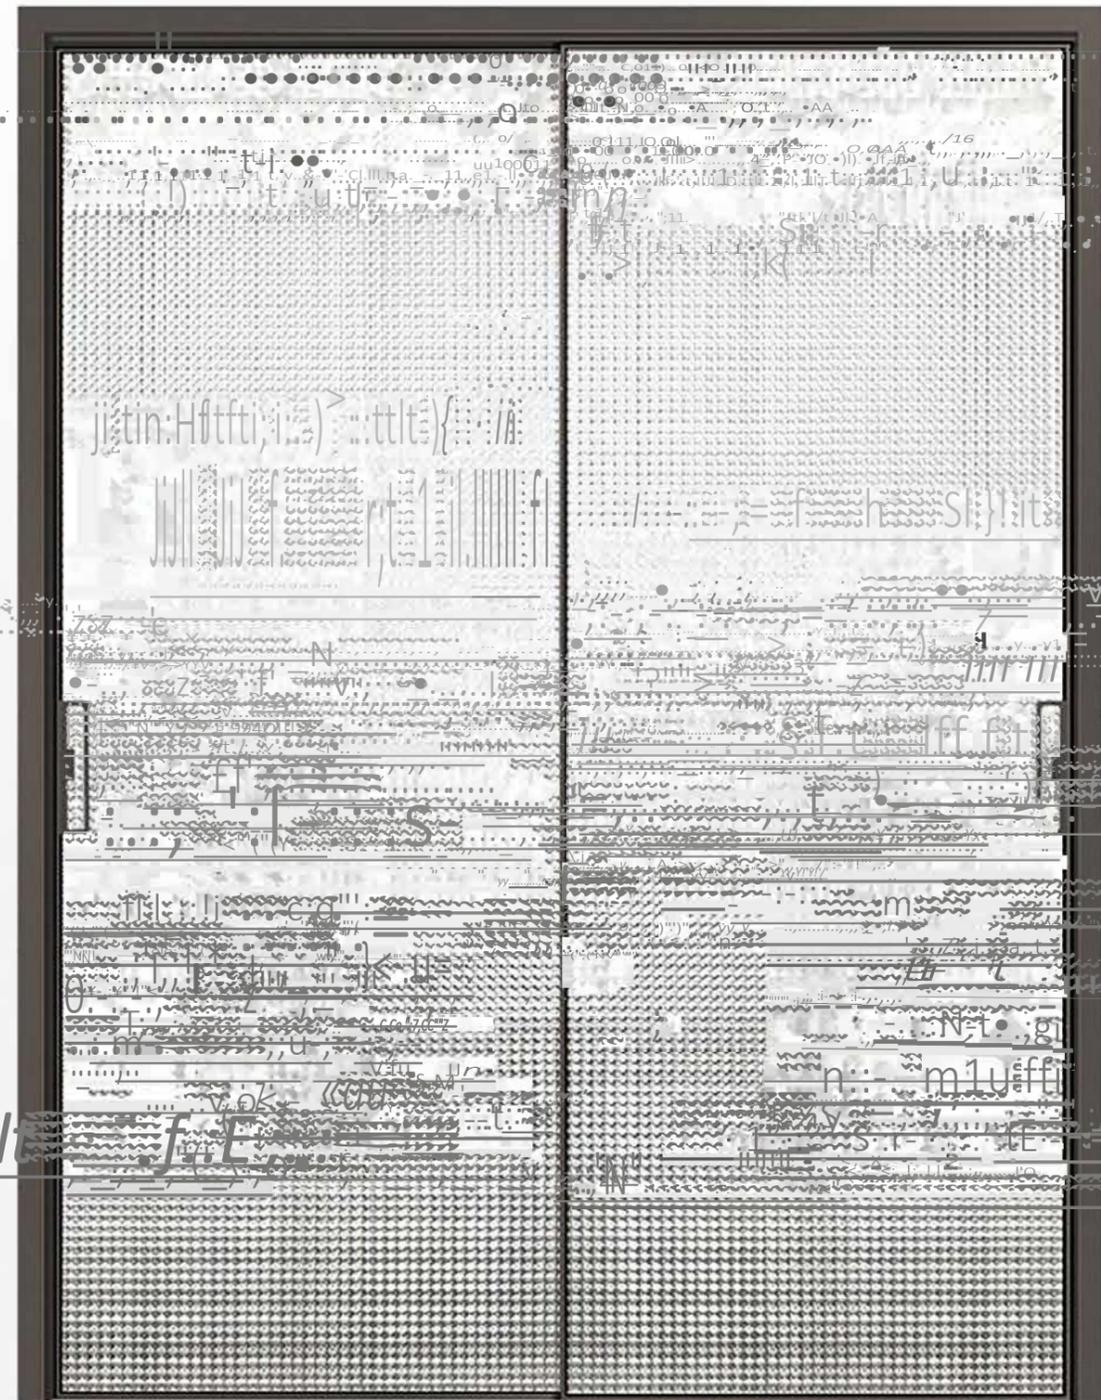

能减缓门关闭带来的噪音，且当门扇即将到达侧板时，会自动慢下来关闭且门不会反弹，不冲撞侧板。
