Impression of Benner

Designed by the top Italian designers,
it interprets the new Italian affordable luxury aesthetics.

With Italian romance and elegance,
A bookcase with a combination of closed and open,
Meet the dual needs of storage and display.

The Italian style dining cabinet uses the vertical handle to enhance the overall elegance,
The integrated G-shape metal glass door is equipped with laminate lamp and embedded light strip.

Super-high cabinet with customized dresser,
From 2.4 meters to 2.7 meters,
More advanced technology,
more excellent quality.

Extended balcony,
The combination of leisure chairs
makes the space more comfortable,
The cloakroom is full of design,
Closet as the partition of the room,
Fashion and elegant.

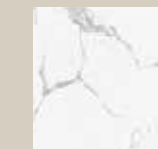

Mirror cabinet, drawer and open lattice can meet the storage requirements of different products in bathroom. The design of the bathtub gives a completely relaxed bath space.

Dream Ballet

The new Italian affordable luxury aesthetics originated from Italy, and the artistic charm of Italian light luxury.

Door

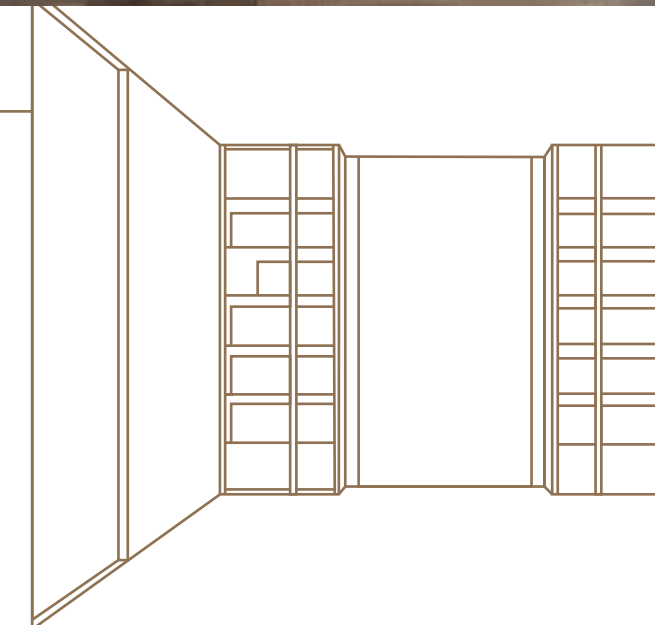

The combination of dresser and lockers adopts a door-to-ceiling design. Use the built-in lamp to build the light door frame and create the ritual atmosphere in the dressing area.

The color of guest bedroom is more lively and fresh. The integration of orange laminate is simple and fashionable, orange color is more youthful and lively.

TV wall, dining cabinet and hall partition are both cabinets and decorative walls, Hide the cabinet in the wall, Create a set of practical and aesthetic multi-functional space.

The bookcase adopts a door-to-ceiling design with aluminum frame glass door. The combination of virtual and real design continues the light and luxurious atmosphere of Italian style. At the same time, pay attention to the use of light to create a smart space of scholarly.

The same color for wall and floor make the space more clean, harmonious and bright. The bottom of the mirror cabinet is illuminated and matched with corrugated grille decorative panel to increase the texture feeling.

This design adopts open layout, use light color wood grain door panel with white door panel to create a warm kitchen space.

Shadow

A kind of design style, but also a kind of attitude towards life.

Meijia's background wall has broken through the previous thickness, and the 10cm thick background wall can embed the whole TV set.

The cabinet is made of simple leather texture material and metal aluminum partition board. The maximum height is 2.7 meters.

Symmetrical design is more fashionable and durable. Open lattice and cabinet door combine function and beauty.

Bring the quality life of star hotels into the home space,
and the design is versatile and diversified.
Combining the quality of residence with the ideal affordable luxury life,
the craftsman creates a simple and light affordable luxury “home” space.

Bedroom

Flexible design and collocation, create a special wardrobe storage space for users, create a full score of new ideas for bedrooms, create exquisite bedroom life.

01

Wardrobe combination

The combination of large area of glass door and laminate with lamp shows affordable luxury quality.

Kitchen

Kitchen affects every day of life.
In addition to arranging the position and
moving line from the cooking operation sequence,
it should also be designed reasonably according to the house type.

Bathroom

Everyday life starts here and ends here. Bathroom is the most private place of the house, and also one of the important components.

Brest

Narrow aluminum frame door + gray transparent glass

The narrow frame is more quality,
and the transparent is more fashionable.
With the lighting,
the bathroom space has a unique flavor of life.

Toilet cabinet

The sliding door is designed to
block the placement of privacy items,
It can also avoid the inconvenience of
opening the door with small space.

Roman Town

Mirror cabinet with storage space, a large area of mirror also makes the small bathroom space more transparent. The interior space of the cabinet is large, which can be used to place higher and larger articles.

Stuttgart

Flat panel cabinet
High space design,
you can place laundry liquid,
detergent and other high items.

Open metal frame
The design of multi-faceted open lattice
is more convenient for taking and
placing common articles from multiple angles.

Milan Skyline

Narrow aluminum frame door + gray transparent glass
The narrow frame is more quality, and the transparent is more fashionable.
With the lighting, the bathroom space has a unique flavor of life.

Modica

Hanging cabinet

The design of toilet cabinet can make full use of bathroom space and increase storage space more reasonably.

Double drawer

Double drawers are designed to put the commonly used items, small items and long items into different areas.
